Dear Frances J Kellie,

Thank you very much for the changing you have made. Though, I really appreciate how quickly you worked in this protocol.

Again, so many thank for your great efforts.

Sincerely yours,
Windy Wariki

Subject: Cochrane protocol modified

Dear Windy MV Wariki,

The Cochrane protocol 'Interventions for improving outcomes for pregnant women who have experienced genital cutting', for which you have accepted the Licence for publication, has been edited prior to publication.

To highlight the changes you can compare the latest version with the previous version using this link (requires login):

<<http://archie.cochrane.org/sections/documents/viewDiff?documentPK=D1C6B1A782E26AA201A8F100B5EA39C2&versionPK1=61889905488276829699120417125238&versionPK2=58428301775209007178120417134518>>

The latest protocol version is attached as a PDF file.

Best wishes,
Frances J Kellie <f.kellie@liverpool.ac.uk>

Hi Kunmi,

How are you?

I am very sorry for delay in replying. That's good to start this kind of work. Please let me know which part that I can help to do.

Best,
Windy

Dear all,

Please be informed of the current status of this review.

I will begin work on the full review now and will be happy to have your input on it once the first draft is completed.

Sincerely,
Olukunmi

See below. If you have any issue when developing the review, please let me know. Once you have drafted, we can meet and discuss.

Best wishes,
Rintaro

件名: Interventions for improving outcomes for pregnant women who have experienced genital cutting - search run - no trials retrieved

To: "rintaromori@gmail.com" <rintaromori@gmail.com>

Dear Rintaro

I have run a search of the PCG Register for your protocol – but I have no trials.

I have added the date of search – so the file is ready for you to develop the review

Best wishes
Lynn

Dear Windy MV Wariki,

We are pleased to let you know that the Cochrane review 'Interventions for improving outcomes for pregnant women who have experienced genital cutting' is now ready for publication. Before it can be published, however, you need to complete the Licence for publication form.

Please click on the link below, log in to Archie, and complete the form.
<<http://archie.cochrane.org/lfp.jsp?pk=z1301181525301699803488464920408>>

The review will only be published in issue 2, 2013 if all authors complete their forms before 01/02/2013 08:00:00 GMT.

More detailed instructions are available here:
<<http://ims.cochrane.org/archie/documentation/licence-form-instructions>>
Do not hesitate to contact me if you experience problems.

The latest review version is attached as a PDF file.

Best wishes,
Frances J Kellie <f.kellie@liverpool.ac.uk>

Subject: Important information about publication of your Cochrane review : Interventions for improving outcomes for pregnant women who have experienced genital cutting

Dear Rintaro (and review team),
Thank you for approving the final copy edited version of your review. We will now process your review for publication in our February module submission to *The Cochrane Library* and arrange for you and your review team to be sent an automated message (via the Archie server) containing a link to the electronic licence for publication which must be completed and submitted by each member of your team before your review can be published.

Please let me know if you have any problems with these forms so that I can help you.
Best wishes
Frances

Dear Frances,
Thank you very much for delivering this good news. We have looked at the edited version and are happy with it.
We will contact Drs Koyanagi and Hirayama with regard to the forms required.

With best wishes,
Rintaro

Subject: Good news and important information about publication of your Cochrane review : Interventions for improving outcomes for pregnant women who have experienced genital cutting

Dear Rintaro (and review team),
I am delighted to inform you that your review, Interventions for improving outcomes for pregnant women who have experienced genital

cutting, has been approved by the editor, Caroline Crowther, for inclusion in our February module submission for publication in Issue 2, 2013 of The Cochrane Library, which will be published on 28 February 2013 - congratulations! Your review has also been copy edited.

It is important that you read the copy edited version of your review (version 1.29) in Archie archie.cochrane.org in order to check that when making copy edits we did not inadvertently introduce errors. If you prefer, you can compare the latest version with the one that you last checked into Archie (version 1.25). To help, I have prepared the comparison document for you - please see attached. You will see that most of the edits are stylistic (according to the Cochrane Style Guide).

Please confirm by 22 Jan, 2013 that you are happy with the final version of your review. If you do not agree with any of our edits or you have questions about them, please do not hesitate to let me know. As soon as I have your approval to publish this version, I will release your review for publication and arrange for the email to be sent to you and your review team to allow you to accept the Collaboration's electronic Licence for Publication form.

****IMPORTANT:** Please note that conflict of interest forms still need to be completed and submitted for the following co-authors: Fumi Hirayama, Ai Koyanagi. We have sent reminders to these co-authors today. These forms must be completed before we can publish your review

I look forward to hearing from you. In the meantime, thank you to you and your review team for all your hard work on finalising this review.

Best wishes
Frances J Kellie
