Dear Rakhbar Murtazayeva,

Attached are the files required for further review process. I do acknowledge that I am one day late from the deadline mentioned in your previous email due to some unavoidable technical problems. I do sincerely apologize for that and hope that this research article can still be considered for publication in JAMRSSS Volume 3 Issue 2, April, 2021.

I consolidated the manuscripts into 1 archive file, which consists of 1 file with authors' full information based on the journal template and another file is the revised manuscript. Hopefully, I do not misunderstand the instructions provided in your previous email. If I mistakenly misunderstood the instructions, if allowed, I will revise the files and re-submit them. Thank you very much for giving me the opportunity to have this article be included in the further review process. Hopefully, this article may provide contribution to the existing finance discipline and meets the qualifications to be published in this journal.

Kind regards,Very

Londa

Thank you very much for your interest in submitting your research article to *Journal of Asian Multicultural Research for Social Sciences Study(JAMRSSS)*.

**Editorial Board's Content Selection Policy:** Please note that Editorial Board of the journal will be very selective, accepting only the articles on the basis of **scholarly merit, research significance, research integrity and complete compliance with the journal style guidelines (APA)**. The JAMRSSS Editorial Board respects and promotes all authors and contributors on the basis of research ability and experience **without considering race,ethnicity, nationality, citizenship, financial means, or any of narrow frames of reference**. **From October 2020, all new submissions to the journal are assessed in two stages. The first hurdle is an editorial screening.** If the Desk Editor finds that the submission is suitable for the aims and scope, standards, and Editorial Board's selection policy, then the Editor invites to revise and restructure the manuscript (in a **combined file** based on **Journal Template attached below**) and resubmit it for further consideration. **The submissions we decide to take forward for the peer review process fully need to be well structured, well written, good presentation of English, firmly anchored in existing academic literature, and complete compliance with the journal style guide and template. The same rules will be strictly applied for all new submissions.**

**Checklist of Manuscript (Important Items):** In particular, the following must be addressed and met the requirements and guidelines:

- 1. JAMRSSS Engagement:** If the literature current, relevant, and broad enough to set the context for the research, you should engage with the style and the discussions published in JAMRSSS. The work in the journal evolved considerably as you can see on [JAMRSSS Archive](#). To fully contribute to the subject, you will need to engage with JAMRSSS. To do so: you should **include at least 3 - 5 relevant references in JAMRSSS**.
- 2. Abstract:** **Please write abstract** to reach **about 200 words** in total. The abstract should describe the following items in order of: 1) the purpose of the research (The study aims to investigate ...), 2) data, materials, and methodology (This study employs samples/survey data/time series data of ...), 3) the results (The results show/reveal that .....), and 4) major findings (The findings of this study suggest that ....., in an **unstructured manner**.
- 3. JEL Classification Code:** **Please provide 3- 5 JEL classification codes, separated by comma (,)**
- 4. Tables and Figures:** **JAMRSSS accepts Tables/Figures created by the author's own work only. Number Tables/Figures consecutively in accordance with their appearance and their indication in the main text. Make sure to provide much details of the Table (of hypothesis test results) with coefficient information, t-statistics, and significance symbol**, for example: [Note:\*, p-value < 0.1; \*\*, p-value < 0.05; \*\*\*, p-value < 0.001. Significant at the 0.05 level]. **Tables must be adjustable. Avoid vertical rules. Extremely large tables that take more than one page print are NOT acceptable. A paper in JAMRSSS from now on may include a maximum of six (6) tables/figures/appendixes in total.**
- 5. Citation and Reference Style Guides:** Authors are expected to **adhere to the guidelines of APA 6<sup>th</sup> or 7<sup>th</sup> edition (American Psychological Association)**. Please provide full information of publications complying with the APA citation and reference styles. **Please ensure that every reference cited in the text is also present in the reference list (and vice versa). If the reference checker (software) finds more than THREE unmatched citations/references, then the manuscript will be automatically rejected by the Executive Editor without further process.** All citations in the text should follow: **Lee and Nguyen (2020) or (Lee & Nguyen, 2020)** in the main text
