Dear Authors,

ACCEPTANCE AND INVITATION LETTER

Firstly, thank you for your submission to the Joint International Conference on **Industrial, Mechanical, Electrical, and Chemical Engineering (ICIMECE) & Annual Conference on Industrial and System Engineering (ACISE)**, in Yogyakarta-Indonesia, 6th-7th of October 2016. We would like to inform that initial screening and review are in favor of your submission.

ID : 024

Authors : Agung Sutrisno, Indra Gunawan and Iwan Vanany

Title : The Robust Corrective Action Priority- An Improved Approach For Selecting Competing Corrective Actions In FMEA Based On Principle Of Robust Design

On behalf of the Committee, we are pleased to notify the conditional acceptance of your submission to Joint International ICIMECE-ACISE 2016. Accordingly, we also invite you to present your work during Joint International ICIMECE-ACISE 2016.

To proceed, you are kindly asked to register and arrange for presentation of your work in Joint International ICIMECE-ACISE 2016. Other arrangements regarding the conference will be informed through you or updated through our official website. Should you have any inquiry, please contact us through email: imece2016@ft.uns.ac.id

Congratulations for the acceptance of your submission and looking forward to see you in Yogyakarta, Indonesia.

Best wishes,

Wahyudi Sutopo

Chairman of ICIMECE and ACISE 2016

----- REVIEW 2 -----

PAPER: 24
TITLE: The Robust Corrective Action Priority- An Improved Approach For Selecting Competing Corrective Actions In FMEA Based On Principle Of Robust Design
AUTHORS: Agung Sutrisno, Indra Gunawan and Iwan Vanany

----- Review -----

The committee has conducted similarity test to your paper and the result is attached in the review form. The similarity score of your paper is 12%. Thus, it is concluded that your paper passed our similarity test<This review contains an attachment, see the file review_2.pdf attached to this letter.>

----- REVIEW 3 -----

PAPER: 24
TITLE: The Robust Corrective Action Priority- An Improved Approach For Selecting Competing Corrective Actions In FMEA Based On Principle Of Robust Design
AUTHORS: Agung Sutrisno, Indra Gunawan and Iwan Vanany

----- Review -----

After our careful examination and review process this paper can be accepted for publication in this conference. The reviewing results are shown below (5 is best, 1 is worst):

Originality = 4
Technical/content quality = 2
Structure and language = 3

Comments if accepted :

1. Please, provide clear processes which can illustrate incorporation of robustness and risk into your model.
2. Your paper is not appropriate in : format of paper title, style of affiliation, style of keyword, style of function, format of table, style of citation, style of reference and style of section.
