Dear Dr. Tudor Papuc

I am sorry for disturbing your work. By this letter, I just want to ask you about the progress of my research paper. I submitted it on Oct 29 2020 but until now I do not have any information whether it is acceptable or not. The title is *Analytic of Organochlorine Insecticides in Seaweed, Kappaphycus alvarezii*. I am so sorry for asking this question. I am waiting for your information.

Best regards,
Sipriana

Hello,

Your paper is preliminary accepted for publication. Please find attached the preliminary acceptance letter.

After this acceptance you should pay 250 USD for publication (open access).

As the payment and bank transfer may be time consuming you may start the process of payment right now; we will send you the invoice immediately after the payment.

Please let us know when the payment is done (scanned receipt) in order to start the publishing process.

In case the peer-reviews suggest rejection, we will return the payment. The payment will not be returned in case of withdrawal request by authors or simply lack of feedback.

Please note that the Publishing House Policy does not allow to start the manuscript editing prior payment.

Here are the info for payment;
take care to write correct the details:

Beneficiary: **Bioflux SRL**
City: Cluj-Napoca
Country: Romania, European Union

SWIFT CODE of the bank: BTRLRO22

Account USD: RO68BTRL01302202128614XX

Bank: BANCA TRANSILVANIA

Important! When bank transfer is used to pay a publication fee, please pay attention to which modality of payment you chose! There are three options: Ben, Our, Us.

Use always "Us" option (meaning that all the bank transfer costs are in your concern/ authors support them and not the publisher). If you forgot to mention that and you let the bank to set "Ben" or "Our" options, we receive about 225 usd instead of 250 usd. Such payments are not valid and you need to pay again for the rest of the sum and one more transfer charge. This situation is not desirable.

There is a second method of payment, by Paypal, with credit card. Please let me know if you choose this method and I will redirect you to our colleague which is in charge of this procedure.

Let me know if you need more details.

Thank you for publishing with us!

Best regards,

Tudor Papuc

Editor, **Bioflux SRL**

Dear Editor **AAAL**

Dr. Tudor Papuc

How are you today? Hope things are going well with you.

By this mail, I just want to ask you about the progress of my paper (Analysis of Organochlorine Insecticides in Seaweed, *Kappaphycus alvarezii*)

Thank you very much for your kindly attention.

Hello, yes, I just got an answer from the second reviewer, who said he will finish the evaluation, and the evaluation will be positive. So, after he will send me the comments, I will also need some time to correct the English and formatting.

I will most likely send you the paper with comments from reviewers, English corrected and formatted by 15-20 March.

Best Regards,
Tudor Papuc

Hello, I am back with the paper with comments. What you need to do is this:

1. Read all the paper carefully, because the English was corrected and the text was formatted.
2. Read carefully all the comments first (before starting the corrections, because some comments might relate to each other) and try to correct as best as you can. Please work on this version of the manuscript. Please mark your changes (highlight with yellow, or use track changes; you can also leave the comments), so I can check them. If you cannot correct, do not wish to do so, or have your own explanations, please write the reason as a reply to the comment or as a new comment.
3. If you have anything to add/change to the text not based on comments, please do so, but mark the changes like in point 2.
4. Try to respect the formatting when making changes.
5. After you make the corrections, please check again, to make sure everything is in order.
6. Send me back the corrected version of the manuscript.

There is one point I want to insist on: please carefully arrange the figures and tables and use the "in line with text" option from the "wrap text options", to avoid the figures and tables moving around in the paper.

I will check it, give it a final form, and send you the final version for a last check before publication.

Thank you,
☺☺☺

Dear Editor **AACI**

Dr. Tudor Papuc

Here I am back with the revision of my paper as suggested by the reviewer (enclosed). I highlight all the correction in green color. Thank you very much, stay healthy and wish you all the best.

Best regards,

Sipriana S. Tumembow

Please find attached the final version of the paper.

All changes were accepted, and there are no new comments.

You should read it again carefully, and if wish to add something, please do so, but mark the changes as you did before. This would be the last time you can make changes to the manuscript.

If everything is ok, let me know, or send me the paper if you make any changes. I will also check the paper again, and publish it in 1-3 days. I will let you know afterwards.

Thank you,

Best Regards,

Tudor Papuc
