Dear Desak Nyoman. Sri Werastuti,

Thank you for reducing the similarity percentage of your manuscript "Determining The Quality Of Social Responsibility Disclosures. A Study Of The Feminist Ethical Theory." It is still by far more than 20% in similarity, excluding the quotes and bibliography already.

However, we already said before that it's out of aims & scope as we mentioned the below information.

---

The Abstract and title are strongly pointing to Social Responsibility and feminism. However, after you pay for the first screening fee of 2,000 Baht, we will send it to the expert for the screening process. Although, we cannot guarantee that it will pass. This applies to all of our paid manuscript submissions that go through the screening process.

Please let us know what mode of payment you prefer. There is a bank to bank transfer option and the online payment using the VISA and MasterCard, which we highly recommend.
