Dear Dr. Sipriana S. Tumembouw,

This is a message of confirmation regarding the reception of your manuscript **Analysis of Organochlorine Insecticides in Seaweed, Kappaphycus alvarezii**, submitted to our journal.

If you can, please recommend 1 or 2 reviewers for your manuscript. It would probably go faster this way. If you cannot, there is no problem. I will search for reviewers.

It is not clear if the submission is for AACL Bioflux, or for AES Bioflux (they both appear in your message). Can you please specify?

For any questions, please contact me, on this email address (as I am the editor in charge of this paper).

Please try to keep one message thread (respond/ask with "Reply") for an easier message management.

Also, if you sent this manuscript to any other editor (except Dr. Petrescu-Mag, at zooliomag2004@yahoo.com), please let me know, because only 1 editor should work on your paper.

Thank you for considering our journal.

Dear Dr. Sipriana S. Tumembouw,

We are almost done with the full review. However, there are major problems, mainly with the references section. Basically, none of the references quoted in text appear on the references list and vice-versa, none of the references in the list is quoted in text, with a single exception. I am really amazed by this, it is the first such case I've met so far. And I am an editor for scientific journals for more than 15 years...

I hope to send you the full review by the end of the day.

Thank you!

Yours,
Claudiu Gavrioloaie

Dear Claudiu Gavrioloaie

I would like to ask if my journal will be published.
Sorry for bothering you.

Sincerely yours,
