---

Dear Dr Pinaria

Congratulations! Your paper is now published in *Australasian Plant Pathology*. You can view it at the journal website at: [www.publish.csiro.au/journals/app](http://www.publish.csiro.au/journals/app)

Attached to this email message is a PDF of your paper. Use of the PDF is covered in the journal's Licence to Publish, which you have signed.

In summary you may:

- Send copies to individual colleagues for non-commercial purposes,
- Print out and distribute copies to colleagues attending any conference presentation you make
- Include the PDF in a course pack, subject to the usual copyright licensing agency arrangements.

However, you may not include the PDF on any website or on any server, including an institutional repository. You may place a pre-publication version of your work on your personal website or in your institutional repository provided that you include a link to the definitive version on the journal's website.

Please contact the Permissions Manager at [publishing@csiro.au](mailto:publishing@csiro.au) <<mailto:publishing@csiro.au>> if you wish to use the PDF for any purpose other than those listed above.

I hope your experience of publishing with *Australasian Plant Pathology* was a positive one, and look forward to future cooperation.

Yours sincerely

Rod Faulkner

Dear Dr Pinaria

Thank you for your reply. Could you also let me know if there are any corrections to your paper or if it is OK to publish as it is?

Kind regards

**Sent:** Saturday, 19 December 2009 11:09 AM  
**To:** Faulkner, Rodrick (Publishing, Collingwood)  
**Subject:** Re: AP09079 pdf proof of article to author

Dear Rod,  
I acknowledge that i have received the proofs of my paper.  
Indeed, i would like a photo of my work to feature on the cover of the Journal. All of the photos on my work are mine. So you can pick up whatever you want.

Warm regards,  
Arthur

Dear Dr Pinaria,

**RE: AP09079**

Please find attached the electronic copy (pdfs) of the **proofs** of your paper in *Australasian Plant Pathology* and the **reprint order form**. Please acknowledge that you have received the proofs immediately by return email.

Please,

- 1) Print out the proofs (pdfs) and the reprint order form (pdfs)
- 2) Read the proofs carefully and reply to all queries a.s.a.p. on return email, **specifying all necessary corrections clearly in your email.**

3) Email or fax back the filled-in reprint order form, or alternatively, you can send it back by mail

Please note that the Proofs stage is the FINAL stage at which your paper may be corrected. Once OK-ed, it will then be finalized and loaded online as well as sent to the printer (both versions will be identical with the exception that some black and white Figs may be available in colour online) . Once your paper is online it is considered to be published and cannot be altered as it will have been distributed to Aggregators serving content as well as downloaded by users and copies will now be circulating throughout your scientific community. The logistics of trying to catch back any of these copies should content need to be corrected make this a very difficult task for us to undertake with any confidence that we will be able to contact ALL those who have already accessed your paper.

Any major corrections should be addressed to the Managing Ed who will discuss the option of publishing a corrigendum in a future issue.

**COVER PHOTOS: If you would like a photo of your work to feature on the cover of the journal in 2010, please send it to me to consider. Please, also send a text line for the cover picture, with the source of the photo acknowledged.**

**Author queries:**

1. There are no queries to the author in this article.

NB: Some references have digital object identifiers (DOIs) attached to them. These need to be left there.

Thanks and best regards

---

Hello Arthur

Jacky Edwards apologises since she forgot to send me the accepted version of your manuscript last week. I have now made it ready for publication and sent it to CSIRO Publishing who will send you a proof copy quite soon. It is destined for the next available issue of APP which is due in April as 39(2).

I am working from home at present due to an illness and I do not know if you faxed a licence to publish to me. To be on the safe side could you complete the attached licence and send it by email to me, when you have a few moments. Sorry about this.

Many thanks for your contribution, patience and cooperation.

kind regards

Keith
