Bls: the final form of the paper "Exploitation rate of Plectropomus leopardus" 2 Yahoo/Email M...

roni bawole <ronibawole@yahoo.com> Kepada: gavriloaie ionel claudiu Sen, 22 Jan 2018 jam 12.15

Dear Claudiu,
 Attached is the revised result of my article. I use the Track changes facility, so it is very easy to see changes or revisions from me. Some of the things I want to inform you are as follows:

- The references from IUCN I have completed with the latest information (2018) either in the text or in the list of references.
- The mistake of writing the name of "Mudjirahayu" existing in the text has been changed to Mudjirahayu, and it is already listed in the list of references.
- Writing the Skala from the description of map of research location has been replaced with Scale.

Thank you for the cooperation, and I am waiting for your next information.

Regards,
Roni Bawole

Dear Dr. Bawole,

I received the document. I only need one day, may be one day and a half to complete editing the final version. I will send it to you before uploading on the website.
 Thank you very much!

Sincerely yours,
 Claudiu Gavriloaie

Dear Dr. Bawole,

I am sending you back the "final" form of the paper. There are still few comments to be addressed. You simply ignored them.
And you did not highlight all the changes you've done. So, I checked again the whole paper, but check it for your self too in order to see if I missed something.
Work only in attached document and mark red the changes.
Thank you very much!

Cordially yours,
Claudiu Gavrioloie

the revision for the paper submitted to AACL Bioflux journal - Exploitation rate of Plectropomus leopardus 3

gavriloaie ionel claudiu <ionelclaudiu@yahoo.com> Kepada: ronibawole@yahoo.com, r.bawole@unipa.ac.id

Sen, 25 Des 2017 jam 19.21

Dear Dr. Bawole,

Here you have the revision for your paper. Some corrections have been marked red. The paper has been accepted by the first reviewer and rejected by the second one (mainly due to the problems with the references....you have so many references in text which are not listed on the references list...and the reviewer considered this unacceptable for an academic journal; and I agree with that). So, I asked for a third opinion, which was favourable to you, but again with comments related with the references. All these took longer time than usual, but in the end the paper is accepted, which is most important, I think.

So, work only in attached document, address every single comment and highlight with a bright color (other than red) all the changes you will do in text.

In regard to the publication fee of 200 USD + bank taxes, pay it by the end of the year, using only one of the two variants below. I know the banks are closed during Christmas, so, pay the fee after that. After the payment send me a scan copy of the bank document. Thank you very much!

Bls: Bls: Fwd: the revision for the paper submitted to AACL Bioflux journal - Exploitation rate of Plectropomus leopardus Yahoo/Terkirim

roni bawole <ronibawole@yahoo.com> Kepada: gavriloaie ionel claudiu Sab, 30 Des 2017 jam 06.29

- I have made a revision (red color) based on comments from reviewers, as follows:
- Changes in affiliation are more due to changes in institutional structures internally within our institution.
 - Completing the references list mentioned in the text but it has not been mentioned in the reference list
 - Eliminating some references that are not in the text but they are included in the references list, for example Bustos and Heemstra
 - Added some research statements that have been done to support the results of this study.
 - From the above points can be seen in the text of the article attached.

Thanks for your kinds and I am looking forward to hearing from you.

Regars, Roni

the final form of the paper "Exploitation rate of Plectropomus leopardus (Pisces: Serranidae)" Yahoo/Email M...

gavriloaie ionel claudiu <ionelclaudiu@yahoo.com> Kepada: ronibawole@yahoo.com, r.bawole@unipa.ac.id Sab, 27 Jan 2018 jam 19.51

Dear Dr. Bawole,

Here you have the final form of your paper. I made some corrections within the references list. Kindly check the paper carefully and then let me know if you agree with the publication in attached form. Also check the title online: <http://www.bioflux.com.ro/home/volume-11-1-2018/>. Thank you very much!

Cordially yours, Claudiu Gavriloaie
