Dear Liany Hendratta,

We received your manuscript and we thank you for the submission. In this sense we try to edit your paper and we try to publish your paper in one of the next available issue (ANNALS or ACTA TECHNICA, after the review process and the final decision). Your content is interesting, and most of probable, the decision for publishing will be OK.

But in your text appeared a lot of errors and the correct editing is not possible (due especially to the .docx version). Please send us your file again, having in view the following remarks:

- please, try to send us the .doc version of your file (not .docx). Our editing process preferred this version, because the errors apparitions are low (or lower).
- please use high qualities' figures in your manuscript (preferably in .jpeg or .tiff format), without any textbox or insertions;
- insert your figures and tables separately, in continuous way, one by one;
- please write the title of figures separately to the figures.

For avoiding the errors which can appear in your paper, please resend us your file, soon as possible.

Sincerely,

Prof. I. KISS

Dear Liany Hendratta,
Thank you for the re-submission (the .doc file), but it is necessary one new revision in your preparing, in the following sections:

- please use high qualities' figures in your manuscript (preferably in .jpeg or .tiff format), without any textbox or insertions!!!
- insert your figures and tables separately, in continuous way, one by one;
- please write the title of figures separately to the figures (not inserted in textbox)
- please write your table using the Word templates and editor (not like a picture, 'cause is it uneditable)!

Without these corrections, your manuscript is uneditable in our template and can generate a lot of erros or mistakes. Sorry for the inconveniences.

For avoiding the errors which can appear in your paper, please resend us your file, soon as possible.

Sincerely,

Dear Professor Imre KISS,

Thank you for your e-mail.

By this e-mail I want to verify that both of us (authors) are from Japan.
After I discussed with my supervisor (Terunori OHMOTO) and if you do not mind we ask your consideration to publish our paper in ANNALS.
Thank you very much for your assistance.

Sincerely Yours,
Liany A. Hendratta

Dear Lianny Hendratta,

We received your manuscript. Thank you!

Now, all is OK, and we put your contribution to the basic editing and first review. Please remain in contact with us.

I. KISS

PS. Please verify your text. I have a short question to you. Both authors are from Japan? In one of your version, you sent us two affiliations. What is the correct affiliation(s)? Please tell us. Thank you in advance.

Also, we consider that your contribution is indicated and proposed for eventually publishing in ACTA TECHNICA/Fascicule 3 (in July), not in ANNALS/Fascicule 3 (in August/September). I remember you, both my Journals have the same indexation and same visibility in the scientific community. Please tell us, if you grant the permission to publish your paper in the most available issue. In other case, we will take in consideration your paper only in September. Thank you in advance for your answer.
