Dr. Youla A. ASSA, MKes, Dr. dr. Nelly Mayulu, M.Si.,Sp.KKLP, Reggie SURYA, PhD, Prof. Dr. Nurpudji Astuti TASLIM, MD., MPH., Sp.GK(K), William Ben GUNAWAN, B.Sc, Dr. Mrinal SAMTIYA, Felicia KARTAWIDAJA, Aurielle Annalicia SETIAWAN, Alfredo WIJAYA, Fahrul Nurkolis:

We have reached a decision regarding your submission to Nutrición Clínica y Dietética Hospitalaria, "Soy and Algae Combination Using Tempe Fermentation Method: A Proposed Opinion for the Development of Functional Food : Soy and Algae Combination Using Tempe Fermentation Method".

Our decision is: Revisions Required

It is not often that we receive "opinion and review" articles. On this occasion, we consider your work to be quite interesting. Even so, readers will be interested in knowing how you obtained and selected the bibliographic references. An explanation of these inclusion and exclusion criteria for referenced articles would be highly valued.

On the other hand it is necessary that you include a specific section of conclusions and that these are added to the abstract.
